

With a 15 ft. harbor depth, the cruise ship *Niagara Prince* easily comes to dock at our bulkhead.

ABOUT OUR HARBOR...

Matagorda Harbor opened in 1990 as part of the *Mouth of the Colorado River Project*, a joint project by the U.S. Army Corps of Engineers and the Port of Bay City Authority. Over the years the harbor has evolved to meet the needs of both pleasure and commercial traffic along the Gulf Intracoastal Waterway.

Matagorda Harbor is proud to be the home port of the Texas A&M Marine Advisory Service classroom vessel *Karma*. Aboard, students get a hands-on lesson in marine biology.

RV PARK...

There are a very limited number of RV spaces at Matagorda Harbor. They are reserved for boat house patrons only.
